VITALIMED EvoForte

Daily protein supplementation

VITALIMED EvoForte is a highly concentrated protein powder (85 %) based on whey protein isolate for preparing a drink.

Our whey protein isolate is derived from cow's milk. 3.5 % of fresh whole milk is protein, which distributes in 80 % casein and 20 % whey protein. Whey is the liquid that remains once milk is processed to make cheese or yogurt and is considered to be the fast digestible part of dairy protein.

Once it is separated from milk, whey is processed further to separate unwanted components from the whey stream. The result is a whey protein concentrate. While the process of many protein products ends here, VITALIMED EvoForte goes one step beyond: An additional filtration step achieves the maximum amount of valuable proteins by further reducing fat, carbohydrates and lactose. Therefore, VITALIMED EvoForte is virtually fat-free, sugar-free and low in lactose.

Whey protein – state of the art protein

Whey proteins convince by a high biological value and availability, which means it is easily absorbed by the gut and distributed in the body for production of new protein.

- Whey protein isolate has an ideal amino acid pattern and is high in essential amino acids.
- Whey protein isolate is quickly digested and well tolerated
- Tin of 350 g with 15 servings.
- Each serving delivers 20 g high quality protein at max. 1 g carbohydrates and is fat-free.

User Benefits

- High biological value
- High quality whey from Dutch type cheese
- Whey protein from grass-fed cows
- 85 % protein content
- High in essential amino acids
- Low in lactose*
- Sugar-, Fat- and Gluten-free
- Natural flavours
- Excellent solubility in water

Whey protein from grazing cows

VITALIMED EvoVegan

Protein powder (80 %) for preparation of shakes – with high plant-based protein concentration

PRODUCT DESCRIPTION

VITALIMED EvoVegan is a natural flavoured, high concentrated pea protein powder (80%) to achieve increased protein requirements with a 100% plant-based nutrition.

- Suitable for sustainable protein intake to stimulate protein synthesis
- Pure high-quality pea protein, naturally non-genetically modified
- 80% protein content
- Very well balanced amino acid profile including L-Lysine
- Climate-friendly thanks to low carbon footprint
- Lactose-, Sugar-, Gluten- and Soy-free
- Vegan and free from allergens¹
- Excellent soluble in water, but also applicable with other liquids

EXAMPLES FOR USE

- Increase protein intake to prevent
 - Loss of mobility
 - Loss of muscles

Use recommendations:

Mix 25 g powder (= 3 tablespoons) with 250 ml water. Drink 1–3 servings per day. A varied and balanced diet and a healthy lifestyle are important. 350 g tin (14 servings).

VITALIMED EvoVegan is 100% plant-based and suitable for vegans, vegetarians, meat eaters and everybody who likes to reduce animal consumption. Choosing pure high-quality pea protein makes the product tasty and free from allergens.

Available in coffee and cherry flavour.

SPECIAL FEATURES

- High amount of protein
- Natural flavours
- Easy to digest
- Enhance nutrition status
- Vegan
- Lactose-free

Rich in protein

Natural flavours,
Vegan

VITALIMED EvoPlus neutral

Instant Protein Powder to enrich food or beverages of choice

PRODUCT DESCRIPTION

VITALIMED EvoPlus neutral is a powder for the protein enrichment of a wide range of food and beverages.

- Instant Protein Powder:
Applicable in hot or cold, in acid or neutral and sweet or savory food
- High biologic value protein
- 90 % Protein content
- Exceptional levels of essential amino acids
- Lactose-, Sugar-, Fat- and Gluten-free
- Low in calorie (40 kcal per serving)
- Easy to prepare – excellent solubility

EXAMPLES FOR USE

- Increase protein intake to prevent
 - Loss of mobility
 - Loss of muscles

Use recommendations:

Mix 11 g powder (= 2 tablespoons) into cold and hot liquids or into prepared food. A varied and balanced diet and a healthy lifestyle are important.
165 g tin (15 servings).

Enrich your food or beverages of choice with
VITALIMED EvoPlus neutral.
Dosage and servings adaptable to protein requirement.

No significant changes in taste or texture of enriched food.

SPECIAL FEATURES

- Unique composition utilizing both the benefits of casein and whey
- Ease-of-use
- Supplementation solution that enables protein enrichment via normal food
- Enhance nutrition status
- Lactose-free*

Rich in protein

Ideal for cooking

Low in calorie
(40 kcal/serving**)
